

THE VILLAGE OF GRAND BEACH HOMEPAGE

GOLF CARTS PROHIBITED IN 42 ACRES EFFECTIVE IMMEDIATELY

On June 20th in response to continued reports of damage being done to the grasses and plants in the 42 acres due to golf carts operating off the marked trails, the Council voted to approve prohibiting all golf carts from entering the 42 acres, except to access and exit the driving range.

New signage will be posted at the existing access points. This action is taken in support of the Village's grant request to the DNR to acquire the 42 acres and dedicate this fragile coastal marsh plain as a protected nature preserve.

Please instruct your tenants, children and grandchildren to stay out of the 42 acres while riding in golf carts effective immediately.

Violators will be ticketed and charged with infractions under the Michigan Natural Resources and Environmental Protection Act resulting in fines assessed by the court.

Thank you.

Paul A. Leonard, Jr.
President, Grand Beach Village Council
